Where is the book in bendy chapter 1

The Illusion of Living is an in-game item that plays a crucial role in Bendy and the Ink Machine. Its cover features a black background with yellow outlines, containing the title "The Illusion of Living" and Joey Drew's name along with a pair of horns. The book is used as one of the six ritual items to activate the Ink Machine, which can be accessed through various locations throughout the game. This section will help players overcome puzzles in the game. To start, find the Ink Machine in the workshop. Then, turn left to reach the Power Room. Before activating the Ink Machine, gather six objects: Cogwheel ⚙, Bendy Doll :dolls:, Book :books:, Ink Bottle , Record :dvd:, and Wrench :wrench:. These items are scattered throughout the map. Once you have all the objects, restore ink pressure in the Projector Room and head back to the Power Room. After that, go to the Ink Machine and activate it. You'll encounter "Bendy" ⚙ at this point. Next, head towards the exit and meet Henry, who will fall through a trapdoor into a secret room. Grab an Axe to clear some wooden planks blocking another room. Finally, approach the Pentagram Room to complete the chapter.
